

Creative Friday- potato printing

This term our topic has been 'Food Glorious Food '

The children took part in creating a wonderful piece of art work using potatoes. Children had to use the skill of carving a leaf pattern within the potato. Children were then asked about colours that they would use so that their tree would look like it was the season Autumn, children were confident in telling me oranges, reds and browns. It was then their time to have a go at painting their potato to print in onto a blank tree. Children within their family groups supported each other so that everyone achieved.
