Dad's Matter – 7 Week Programme
Monday evenings from 7.30 – 9pm at King's House, Mildenhall
Starting Monday 31 October 2016.

Being a Dad is becoming a harder and more important role as we look to protect and nurture our children and to create positive relationships.

Whether living with your children or apart, life often means that you have little time to spend with them. In this time you are the role model for your daughter's in how they should expect to be treated by a man, and for your sons in being the type of husband and father you wish them to be – it's not easy.

This 7 week – men only – programme is facilitated by Woody – a father and grandfather. It aims to give you tools and ideas for supporting you in your relationships with your children, both now and in the future.
