

## **Creative Friday – 3D Art**

**This term featured Roald Dahl day and that coupled with the whole school topic of ‘Food Glorious Food’ the children took part in creating a wonderful piece of 3D art work, which celebrated the work of Roald Dahl.**

**The children used shading techniques to create strips of coloured paper, which resembled the skin of a peach. Each strip could have its own design and once built up the children had their very own unique 3D peach.**

**All that was left to do was embellish the picture with seagulls and waves and then the children had created a scene from the story of ‘James and the Giant Peach’.**
